Yep, do you need me to set up a conference line, so that people can call into it?

Sincerely,

Cheryl Burdett

Cheryl

Thank you for update.

It would be helpful to visit in person to look at a map as we are still taking samples and monitoring winner spreading. I am walking by your office at nine or 3 to 4 today when are you available?

Hi [REDACTED]

I apologize for not updating you. We are still continuing with our investigation. I will be calling this winter to set up sampling of private wells with citizens for the spring. In October, we did have a change in management, so I needed to brief my new

Management on what is happening with CAFOs in general.

If you would like to have a call to discuss, we can definitely set that up. I cannot provide you with all the details of our investigation because it is enforcement confidential. However, I can go over when sampling will probably occur and if you or anyone else have any thoughts or more information to provide.

Sincerely,

Cheryl Burdett

Cheryl,
I know EPA going thru some changes. Can you please call me to update?
We represented to the town and DNR that the water testing would start in oct as we discussed.
Don't want to lose credibility w citizens and DNR with who I am meeting later this week.
Please call me so I can explain.
Thank you.

Subject: CSD Information

Hi all,

We are currently developing a modelling system for the groundwater in the area around CSD and are in need of the depth of the private homeowner wells in the area. If you guys or Ex. 6 Personal Privacy (PP) Ex. 6 Personal Privacy (PP) on this message string) could ask the local homeowners who have come

forward if they would be willing to release the depth of their wells to us. It would be a great help for our modelling system.

Also if you could ask them whether they have an in home filtration system or water softening system and if so does their outside hose spigot get its water from before or after the softener/filtration system. I was able to find the information for [Ex. 6 Personal Privacy (PP)] well on the DNR's website. So that leaves the [Ex. 6 Personal Privacy (PP)] Residence, the [Ex. 6 Personal Privacy (PP)] Also let us know if any other locals are willing to come forward and let us sample their water. Thanks.

Sam
